This is your contribution graph. Your first is for joining GitHub and you'll earn more as you make additional contributions. More contributions means a darker green square for that day. Over time, your chart might start looking something like this.

We have a quick guide that will show you how to create your first repository and earn more green squares!

We recommend every repository include a README, LICENSE, and .gitignore.

...or create a new repository on the command line

```
echo "# CMPT220Burek" >> README.md
git init
git add README.md
git commit -m "first commit"
git remote add origin https://github.com/owen-burek/CMPT220Burek.git
git push -u origin master
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/owen-burek/CMPT220Burek.git
git push -u origin master
```

...or import code from another repository

You can initialize this repository with code from a Subversion, Mercurial, or TFS project.
